7.0	No aircraft were seen at the Finow-North (N 53/V 08) airstrip on 21, 23 and 25 February 1951. A biplane landed at the field at 11 a.m. on 27 February. The biplanes stationed at the field were probably in the hangar. *	
. 2.	From 5 to 6 p. m. on 23 F. bruary 30 soldiers wearing black-bordered blue epaulets were seen marching from their quarters west of the brass works to their mess hall. Five air force officers were walking to the airfield. The quarters were estimated to be occupied by 10 officers and 40 to 50 EM. Four trucks, an ambulance and a caterpillar tractor were standing in front of the garage. The hangar was guarded by a sentry.	,
3.	A radar set was seen at the northern edge of the field on 2 and 3 March. ** On 3 March the set had rotated by about 90° as compared wit	
	its position on the previous day. Guards were not observed. A nound, probably an underground bunker, was just northeast of the set.	ch .
4.	its position on the previous day. Quards were not observed. A nound, probably an underground bunker, was just northeast of the set. No aircraft were seen at the Finow-North airfield on 6 Larch 1951:

	its position on the previous day. Guards were not observed. A mound, probably an underground bunker, was just northoast of the set. No aircraft were seen at the Finow-North airfield on 6 Larch 1951; the hangar, which was open, was empty. The radar set north of the brass works near the Hohenzellern Canal was still at its previous place and was not in operation. On 8 Larch, the Finow-Lichterfelde (N 53/V 09) road, which crosses the Finow-North airstrip and which had formerly been open to public traff was blocked.** Three horse-drawn Soviet vehicles with about six soldiers wearing red-bordered black epaulets were seen at the road.	50X1-HUI 50X1-HUN
